

CP610

REINFORCEMENT DRAIN DETAIL

KEY BENEFITS SUMMARY

- An effective method for detailing critical waterproof transitions
- Compatible with TREMCO liquid applied waterproofing systems
- Provides additional waterproofing in high risk areas

PRODUCT INFORMATION

Description

CP610 is an SEBS rubber sheet used for reinforcement at pipes, drains and other penetrations.

Uses

CP610 can be cut to size on-site, to fit over a pipe, into a drain or in/over any other penetration or area needing detailing, to provide an elastomeric, watertight reinforcement.

Packaging

Box of 10 sheets (480 mm x 480 mm)

Colour

Grey

Availability

Direct from tremco illbruck (see bottom of leaflet for address and telephone details).

Method of Application

Refer to project-specific instructions for details of application procedures.
Contact tremco illbruck for full details.

Health & Safety Precaution

Safety data sheet must be read and understood before use.
